

New Introduction

*Calamagrostis x acutiflora 'Overdam'*  
**Variegated Feather Reed Grass**

Creamy white stripes with green variegation along the length of its leaves. A cool season grower, it will tolerate heat and humidity when planted in part-shade. Foliage that reaches 18in and stems with flowers that tower 5ft to 6ft.

*Calamagrostis Acutiflora Karl Foerster*  
**Karl Foerster Feather Reed Grass**

Showy feather plumes with striking erect wheat coloured seed heads. Blooms July to August. Fast growth rate. 5ft to 6ft tall. Sun to partial shade. Zone 5.

*Carex Morrowii Ice Dance*  
**Ice Dance Sedge**

One half inch wide, dark green leaves with clear white borders form compact tufts. Improved cultivar of Variegatus. Semi evergreen. Great low maintenance ground cover: Up to 1ft tall. Partial to full shade. Zone 5.

*Festuca Glauca Elijah Blue*  
**Elijah Blue Fescue Grass**

Narrow leaves and sparse flowers. Blooms May to June. Medium growth rate. 1ft tall. Sun to partial shade. Very popular silver blue variety. Zone 4.

*Miscanthus Sinensis Gracillimus*  
**Maiden Grass**

Inflorescence is bronze red turning to silver. Graceful slender arching foliage that is decorative in winter. Blooms in September to October. Medium growth rate. 6ft to 8ft tall. Full sun. Zone 5.

New Introduction

*Miscanthus sinensis 'Morning Light'*  
**Variegated Maiden Grass**

Fine-textured, slender foliage with defined white variegation running along the leaf margin. It grows in a neat, upright, strongly arching form. In September, tan plumes appear. Tolerates light shade. Zone 5-9.

*Miscanthus Sinensis Strictus*  
**Porcupine Grass**

Green leaves cross banded with yellow, similar to Zebrinus. More upright growth habit, blooms in September. Medium growth rate. 4ft to 6ft tall. Full sun. Zone 5.

New Introduction

*Panicum virgatum 'Shenandoah'*  
**Red Switchgrass**

Its upright foliage becomes red tinted during the growing season, culminating in a dazzling red-leaved show in fall. Renowned for their drought tolerance and ease of maintenance. A good substitute for Japanese Bloodgrass. Zone 4-10.

*Pennisetum Alopecuroides Hamelin*  
**Hamelin Dwarf Fountain Grass**

Greenish white to creamy tan bloom. Green leaf grass with arching and feathery plumes from mid August to October. Medium growth rate. 2ft to 3ft tall. Full sun. Zone 5.

*Pennisetum Alopecuroides Little Bunny*  
**Little Bunny Fountain Grass**

Silvery blooms, green leafed, miniature fountain grass. Blooms August to October. Medium growth rate. 1ft to 1.5ft tall. Full sun. Zone 5.
